SECTION 1 INTRODUCTION

A. PURPOSE

This document is a ☐ policy-level, ☒ project level Initial Study for evaluation of potential environmental impacts resulting with the proposed Parcel Map (Refer to Exhibit "A" & "B").

B. CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA) REQUIREMENTS AND THE IMPERIAL COUNTY'S GUIDELINES FOR IMPLEMENTING CEQA

As defined by Section 15063 of the State California Environmental Quality Act (CEQA) Guidelines and Section 7 of the County's "CEQA Regulations Guidelines for the Implementation of CEQA, as amended", an **Initial Study** is prepared primarily to provide the Lead Agency with information to use as the basis for determining whether an Environmental Impact Report (EIR), Negative Declaration, or Mitigated Negative Declaration would be appropriate for providing the necessary environmental documentation and clearance for any proposed project.

- According to Section 15065, an EIR is deemed appropriate for a particular proposal if the following conditions occur:
- The proposal has the potential to substantially degrade the quality of the environment.
- The proposal has the potential to achieve short-term environmental goals to the disadvantage of long-term environmental goals.
- The proposal has possible environmental effects that are individually limited but cumulatively considerable.
- The proposal could cause direct or indirect adverse effects on human beings.

Second to Section 15070(a), a Negative Declaration is deemed appropriate if the proposal would not result in any significant effect on the environment.

According to Section 15070(b), a **Mitigated Negative Declaration** is deemed appropriate if it is determined that though a proposal could result in a significant effect, mitigation measures are available to reduce these significant effects to insignificant levels.

This Initial Study has determined that the proposed applications will not result in any potentially significant environmental impacts and therefore, a Negative Declaration is deemed as the appropriate document to provide necessary environmental evaluations and clearance as identified hereinafter.

This Initial Study and Negative Declaration are prepared in conformance with the California Environmental Quality Act of 1970, as amended (Public Resources Code, Section 21000 et. seq.); Section 15070 of the State & County of Imperial's Guidelines for Implementation of the California Environmental Quality Act of 1970, as amended (California Code of Regulations, Title 14, Chapter 3, Section 15000, et. seq.); applicable requirements of the County of Imperial; and the regulations, requirements, and procedures of any other responsible public agency or an agency with jurisdiction by law.

Pursuant to the County of Imperial <u>Guidelines for Implementing CEQA</u>, depending on the project scope, the County of Imperial Board of Supervisors, Planning Commission and/or Planning Director is designated the Lead Agency, in accordance with Section 15050 of the CEQA Guidelines. The Lead Agency is the public agency which has the

principal responsibility for approving the necessary environmental clearances and analyses for any project in the County.

C. INTENDED USES OF INITIAL STUDY AND NEGATIVE DECLARATION

This Initial Study and Negative Declaration are informational documents, which are intended to inform County of Imperial decision makers, other responsible or interested agencies, and the general public of potential environmental effects of the proposed applications. The environmental review process has been established to enable public agencies to evaluate environmental consequences and to examine and implement methods of eliminating or reducing any potentially adverse impacts. While CEQA requires that consideration be given to avoiding environmental damage, the Lead Agency and other responsible public agencies must balance adverse environmental effects against other public objectives, including economic and social goals.

The Initial Study and Negative Declaration, prepared for the project will be circulated for a period of 20 days (30-days if submitted to the State Clearinghouse for a project of area-wide significance) for public and agency review and comments. At the conclusion, if comments are received, the County Planning & Development Services Department will prepare a document entitled "Responses to Comments" which will be forwarded to any commenting entity and be made part of the record within 10-days of any project consideration.

D. CONTENTS OF INITIAL STUDY & NEGATIVE DECLARATION

This Initial Study is organized to facilitate a basic understanding of the existing setting and environmental implications of the proposed applications.

SECTION 1

I. INTRODUCTION presents an introduction to the entire report. This section discusses the environmental process, scope of environmental review, and incorporation by reference documents.

SECTION 2

II. ENVIRONMENTAL CHECKLIST FORM contains the County's Environmental Checklist Form. The checklist form presents results of the environmental evaluation for the proposed applications and those issue areas that would have either a potentially significant impact, potentially significant unless mitigation incorporated, less than significant impact or no impact.

PROJECT SUMMARY, LOCATION AND EVIRONMENTAL SETTINGS describes the proposed project entitlements and required applications. A description of discretionary approvals and permits required for project implementation is also included. It also identifies the location of the project and a general description of the surrounding environmental settings.

ENVIRONMENTAL ANALYSIS evaluates each response provided in the environmental checklist form. Each response checked in the checklist form is discussed and supported with sufficient data and analysis as necessary. As appropriate, each response discussion describes and identifies specific impacts anticipated with project implementation.

SECTION 3

- **III. MANDATORY FINDINGS** presents Mandatory Findings of Significance in accordance with Section 15065 of the CEQA Guidelines.
- IV. PERSONS AND ORGANIZATIONS CONSULTED identifies those persons consulted and involved in

preparation of this Initial Study and Negative Declaration.

V. REFERENCES lists bibliographical materials used in preparation of this document.

VI. NEGATIVE DECLARATION - COUNTY OF IMPERIAL

VII. FINDINGS

SECTION 4

VIII. RESPONSE TO COMMENTS (IF ANY)

IX. MITIGATION MONITORING & REPORTING PROGRAM (MMRP) (IF ANY)

E. SCOPE OF ENVIRONMENTAL ANALYSIS

For evaluation of environmental impacts, each question from the Environmental Checklist Form is summarized and responses are provided according to the analysis undertaken as part of the Initial Study. Impacts and effects will be evaluated and quantified, when appropriate. To each question, there are four possible responses, including:

- 1. **No Impact:** A "No Impact" response is adequately supported if the impact simply does not apply to the proposed applications.
- 2. **Less Than Significant Impact:** The proposed applications will have the potential to impact the environment. These impacts, however, will be less than significant; no additional analysis is required.
- 3. Potentially Significant Unless Mitigation Incorporated: This applies where incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less Than Significant Impact".
- 4. **Potentially Significant Impact**: The proposed applications could have impacts that are considered significant. Additional analyses and possibly an EIR could be required to identify mitigation measures that could reduce these impacts to less than significant levels.

F. POLICY-LEVEL or PROJECT LEVEL ENVIRONMENTAL ANALYSIS

This Initial Study and Negative Declaration will be conducted under a \square policy-level, \boxtimes project level analysis. Regarding mitigation measures, it is not the intent of this document to "overlap" or restate conditions of approval that are commonly established for future known projects or the proposed applications. Additionally, those other standard requirements and regulations that any development must comply with, that are outside the County's jurisdiction, are also not considered mitigation measures and therefore, will not be identified in this document.

G. TIERED DOCUMENTS AND INCORPORATION BY REFERENCE

Information, findings, and conclusions contained in this document are based on incorporation by reference of tiered documentation, which are discussed in the following section.

1. Tiered Documents

As permitted in Section 15152(a) of the CEQA Guidelines, information and discussions from other documents can be included into this document. Tiering is defined as follows:

"Tiering refers to using the analysis of general matters contained in a broader EIR (such as the one prepared

for a general plan or policy statement) with later EIRs and negative declarations on narrower projects; incorporating by reference the general discussions from the broader EIR; and concentrating the later EIR or negative declaration solely on the issues specific to the later project."

Tiering also allows this document to comply with Section 15152(b) of the CEQA Guidelines, which discourages redundant analyses, as follows:

"Agencies are encouraged to tier the environmental analyses which they prepare for separate but related projects including the general plans, zoning changes, and development projects. This approach can eliminate repetitive discussion of the same issues and focus the later EIR or negative declaration on the actual issues ripe for decision at each level of environmental review. Tiering is appropriate when the sequence of analysis is from an EIR prepared for a general plan, policy or program to an EIR or negative declaration for another plan, policy, or program of lesser scope, or to a site-specific EIR or negative declaration."

Further, Section 15152(d) of the CEQA Guidelines states:

"Where an EIR has been prepared and certified for a program, plan, policy, or ordinance consistent with the requirements of this section, any lead agency for a later project pursuant to or consistent with the program, plan, policy, or ordinance should limit the EIR or negative declaration on the later project to affects which:

- (1) Were not examined as significant effects on the environment in the prior EIR; or
- (2) Are susceptible to substantial reduction or avoidance by the choice of specific revisions in the project, by the imposition of conditions, or other means."

2. Incorporation By Reference

Incorporation by reference is a procedure for reducing the size of EIRs/MND and is most appropriate for including long, descriptive, or technical materials that provide general background information, but do not contribute directly to the specific analysis of the project itself. This procedure is particularly useful when an EIR or Negative Declaration relies on a broadly-drafted EIR for its evaluation of cumulative impacts of related projects (*Las Virgenes Homeowners Federation v. County of Los Angeles* [1986, 177 Ca.3d 300]). If an EIR or Negative Declaration relies on information from a supporting study that is available to the public, the EIR or Negative Declaration cannot be deemed unsupported by evidence or analysis (*San Francisco Ecology Center v. City and County of San Francisco* [1975, 48 Ca.3d 584, 595]). This document incorporates by reference appropriate information from the "Final Environmental Impact Report and Environmental Assessment for the "County of Imperial General Plan EIR" prepared by Brian F. Mooney Associates in 1993 and updates.

When an EIR or Negative Declaration incorporates a document by reference, the incorporation must comply with Section 15150 of the CEQA Guidelines as follows:

- The incorporated document must be available to the public or be a matter of public record (CEQA Guidelines Section 15150[a]). The General Plan EIR and updates are available, along with this document, at the County of Imperial Planning & Development Services Department, 801 Main Street, El Centro, CA 92243 Ph. (442) 265-1736.
- This document must be available for inspection by the public at an office of the lead agency (CEQA Guidelines Section 15150[b]). These documents are available at the County of Imperial Planning & Development Services Department, 801 Main Street, El Centro, CA 92243 Ph. (442) 265-1736.
- These documents must summarize the portion of the document being incorporated by reference or briefly

describe information that cannot be summarized. Furthermore, these documents must describe the relationship between the incorporated information and the analysis in the tiered documents (CEQA Guidelines Section 15150[c]). As discussed above, the tiered EIRs address the entire project site and provide background and inventory information and data which apply to the project site. Incorporated information and/or data will be cited in the appropriate sections.

- These documents must include the State identification number of the incorporated documents (CEQA Guidelines Section 15150[d]). The State Clearinghouse Number for the County of Imperial General Plan EIR is SCH #93011023.
- The material to be incorporated in this document will include general background information (CEQA Guidelines Section 15150[f]). This has been previously discussed in this document.

Environmental Checklist

Project Title: Parcel Map #02509

11.

- 2. Lead Agency: Imperial County Planning & Development Services Department
- 3. Contact person and phone number: Luis Valenzuela, Planner II, (442)265-1736, ext. 1749
- 4. Address: 801 Main Street, El Centro CA, 92243
- 5. E-mail: luisvalenzuela@co.imperial.ca.us
- Project location: 500 W. Boarts Road, Westmorland, CA 92281, APN 035-210-016 & 036-150-004
- 7. Project sponsor's name and address: Carson Kalin. P.O. Box 1234, Brawley, CA 92227
- 8. General Plan designation: Agriculture
- 9. Zoning: A-3 (Heavy Agricultural)
- 10. **Description of project**: The applicant, Carson Kalin, is proposing a minor subdivision to separate two legal parcels with two existing agricultural fields into six legal parcels. The first is Assessors Parel Number: 035-210-016 located on Kalin Road between Boarts Road and Timothy Lateral, bounded to the west by the Timothy 2 drain, in the County of Imperial, California. The second is Assessor's Parcel Number: 036-150-004 located on Kalin Road between Boarts Road and Baughman Road, in the County of Imperial, California. The subject properties are described as being parcel A of Certificate of Compliance for Lot Line Adjustment #00331 containing 266.69 acres and the east half and the east 60 acres of the north half of the west half of tract 77, T.13s., R.13E., S.B.M. containing 213.24 acres. The reason behind the proposed parcel map is to separate the existing separately farmed fields into legal parcels.

The proposed Parcel 1 will have physical and legal access from Boarts Road and Kalin Road through common ownership of Parcel 2 and Parcel 3, will continue to receive water from the Tamarack Canal Delivery #202-A, and will continue to drain to the Timothy 2 drain. There is no proposed development on Parcel 1 or any changes in water delivery. The proposed Parcel 1 will be approximately 81.26 Acres and will remain agricultural.

The proposed Parcel 2 will have physical and legal access from Kalin Road, will continue to receive water from the Tamarack Canal Delivery #202-A, and will continue to drain to the Timothy 1 Drain. There is no proposed development on Parcel 2 or any changes in water delivery. The proposed Parcel 2 will be approximately 79.06 Acres and will remain agricultural.

The proposed Parcel 3 will have physical and legal access from Boarts Road, will continue to receive water from the Tamarack Canal Delivery #202 through an existing easement, and will continue to drain to the Timothy 1 Drain and the Timothy 2 Drain. There is no proposed development on Parcel 3 or any changes in water delivery. The proposed Parcel 3 will be approximately 106.39 acres and will remain agricultural.

The proposed Parcel 4 will have physical and legal access from Boarts Road, will continue to receive water from the Tamarack Canal Delivery #201, and will continue to drain to the Timothy 2 drain. There is no proposed development of Parcel 4 or any changes in water delivery. The proposed Parcel 4 will be approximately 58.64 acres and will remain agricultural.

The proposed Parcel 5 will have physical and legal access from Boarts Road and Kalin Road, will continue to receive water from the Tamarack Canal Delivery #201, and will continue to drain to the Timothy 1 drain. There is no proposed development on Parcel 5 or any changes in water delivery. The proposed Parcel 5 will be approximately 78.71 acres and will remain agricultural.

The proposed Parcel 6 will have physical and legal access from Baughman Road, will continue to receive water from the Tamarack Canal Delivery #201-A, and will continue to drain to the Timothy 1 Drain. There is no proposed development on Parcel 6 or any changes in water delivery. The proposed Parcel 6 will be approximately 75.89 acres and will remain agricultural.

11. Surrounding land uses and setting: The project is located on Kalin Road between Boarts Road and the Timothy Lateral, bounded to the west by the Timothy 2 Drain, in the County of Imperial, CA. The subject property is described

as being Parcel A of Certificate of Compliance for Lot Line Adjustment #00331 containing 266.69 acres. The property is also known as Assessor's Parcel Number (APN) 035-210-016. The second parcel is located on Kalin Road between Boarts Road and Baughman Road, in the County of Imperial, CA. The subject property is described as being East 60 acres of the North Half of the West Half of tract 77, T.13S., R.13E., S.B.M. containing 213.24 acres. The property is also known as Assessor's Parcel Number (APN) 036-150-004.

The project is surrounded by parcels zoned as A-3 (Heavy Agricultural) and A-2 (General Agricultural) on the North; parcels zoned as A-3 (Heavy Agricultural) and A-2 (General Agricultural) on the South; parcels zoned as A-3 (Heavy Agricultural) and A-2 (General Agricultural) on the West; and parcels zoned as A-3 (Heavy Agricultural) and A-2-G (General Agricultural with Geothermal Overlay) on the East.

- 12. Other public agencies whose approval is required (e.g., permits, financing approval, or participation agreement.): Planning Commission.
- 13. Have California Native American tribes traditionally and culturally affiliated with the project area requested consultation pursuant to Public Resources Code section 21080.3.1? If so, is there a plan for consultation that includes, for example, the determination of significance of impacts to tribal cultural resources, procedures regarding confidentially, etc.?

The Quechan and Campo Band of Mission Indian Tribes have requested to be consulted under Assembly Bill 52. Consultation letters were sent to the Quechan and Campo Band of Mission Indian Tribes on April 3, 2024. No comments have been received from the Quechan and Campo Band of Mission Indian Tribes for this project to this date.

PROJECT SUMMARY

- A. Project Location: The project is located at 500 W. Boarts RD, Westmorland, CA 92281; Assessor's Parcel Number: 035-210-016 and 036-150-004.
- B. Project Summary: The applicant, Carson Kalin., proposes a minor subdivision to separate two legal parcels with two existing agricultural fields into six legal parcels. Proposed Parcel 1 would be approximately 81.26 acres, Proposed Parcel 2 approximately 79.06 acres, Proposed Parcel 3 approximately 106.39 acres, Proposed Parcel 4 approximately 58.64 acres, Proposed Parcel 5 approximately 75.89 acres. Existing agricultural use is proposed to remain.
- C. Environmental Setting: The proposed project parcel is generally flat, located on Kalin Road between Boarts Road and Timothy Lateral, bounded to the west by the Timothy 2 Drain in the County of Imperial, CA, and currently used as agricultural. Surrounding parcel uses are Heavy Agricultural and General Agricultural with Geothermal Overlay. The City of Westmorland is located approximately 1.5 miles west of the project site.
- D. Analysis: Under the Land Use Element of the Imperial County General Plan, the project site is designated as "Agriculture." It is classified as A-3 (Heavy Agricultural) per Zone Map #7 of the Imperial County Land Use Ordinance (Title 9). Initial Study #24-0004 will analyze any impacts related to the proposed project. The proposed subdivision involves (2) two parcels: proposed Parcel 1 with approximately ±266.69 Acres and proposed Parcel 2 with approximately ±210.42 Acres, which complies with Section 90805 of the Imperial County Land Use Ordinance (Title 9). Both proposed parcels are to remain in agricultural use.
- E. General Plan Consistency: The project is located within the County's General Plan designation of "Agriculture." The site is currently zoned A-3 (Heavy Agricultural). The proposed project is consistent with the General Plan and County Land Use Ordinance, Section 90509 and Division 8 Chapter 5 Section 90805, since no change is being proposed to the existing "Agriculture" designation.

Exhibit "A" Vicinity Map

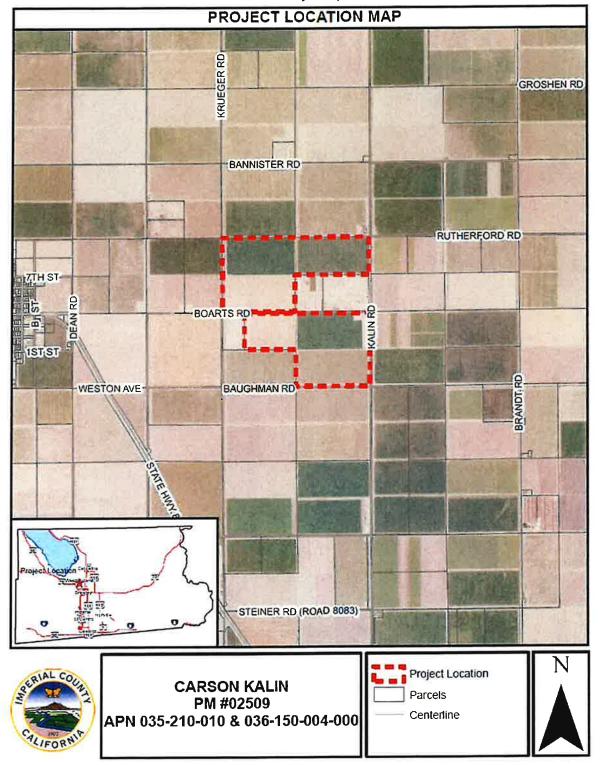

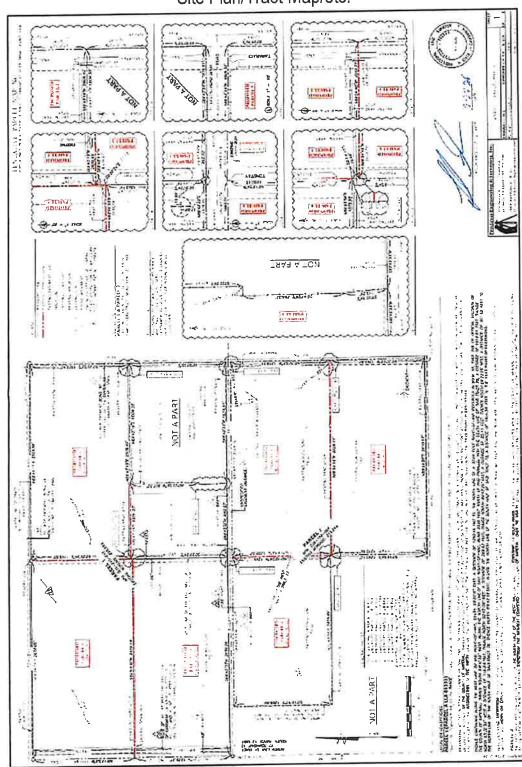

Exhibit "B"
Site Plan/Tract Map/etc.

EVALUATION OF ENVIRONMENTAL IMPACTS:

- 1) A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g., the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project-specific factors as well as general standards (e.g., the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).
- 2) All answers must take account of the whole action involved, including off-site as well as on-site, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.
- Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. "Potentially Significant Impact" is appropriate if there is substantial evidence that an effect may be significant. If there are one or more "Potentially Significant Impact" entries when the determination is made, an EIR is required.
- "Negative Declaration: Less Than Significant With Mitigation Incorporated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less Than Significant Impact." The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from "Earlier Analyses," as described in (5) below, may be cross-referenced).
- 5) Earlier analyses may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063(c)(3)(D). In this case, a brief discussion should identify the following:
 - a) Earlier Analysis Used. Identify and state where they are available for review.
 - b) Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.
 - Mitigation Measures. For effects that are "Less than Significant with Mitigation Measures Incorporated," describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project.
- 6) Lead agencies are encouraged to incorporate into the checklist references to information sources for potential impacts (e.g., general plans, zoning ordinances). Reference to a previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.
- 7) Supporting Information Sources: A source list should be attached, and other sources used or individuals contacted should be cited in the discussion.
- 8) This is only a suggested form, and lead agencies are free to use different formats; however, lead agencies should normally address the questions from this checklist that are relevant to a project's environmental effects in whatever format is selected.
- 9) The explanation of each issue should identify:
 - a) the significance criteria or threshold, if any, used to evaluate each question; and
 - b) the mitigation measure identified, if any, to reduce the impact to less than significance

IV. BI	DLOGICAL RESOURCES Would the project:				
a)	Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans,			\boxtimes	

Impact No Impact Incorporated Impact (LTSI) (NI) (PSI) (LTSMI) policies or regulations, or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service? a) The proposed project site is located within disturbed land. According to the Imperial County General Plan's Conservation and Open Space Element⁴, Figure 1 "Sensitive Habitat Map⁴⁴," the project is not located within a sensitive habitat area. Additionally, in accordance to Figure 2 "Sensitive Species Map4b," the project is located within the Burrowing Owl Species Distribution Model area. However, the proposed project does not expect to have any physical changes to the environment. Consequently, it does not appear to have a substantially adverse effect, either directly or through habitat modification, or to any species identified as a candidate, sensitive, or of special status in local or regional plans, policies, or regulations, or by the California Department of Fish and Wildlife Service. Any future developments on site, the applicant shall contact ICPDS; therefore, any impacts are expected to be less than significant. Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional \Box П \times plans, policies, regulations, or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service? b) According to the Imperial County General Plan's Conservation and Open Space Element⁴, the project site is not within a sensitive or riparian habitat, or on other sensitive natural community. Additionally, the existing agricultural use is proposed to remain; therefore, it does not appear to have a substantial effect in local regional plans, policies, and regulations with respect to sensitive natural communities or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service. Any impacts are expected to be less than significant. Have a substantial adverse effect on state or federally protected wetlands (including, but not limited to, marsh, vernal П \boxtimes pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means? c) As previously stated on item (IV)(b) above, the proposed project is for a minor subdivision that is not located within a riparian habitat and which will not cause a substantial adverse effect on federal protected wetlands (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means. Any impacts are expected to be less than significant. Interfere substantially with the movement of any resident or migratory fish or wildlife species or with established native \boxtimes resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites? d) The proposed project site has an existing agricultural use in an area of approximately ±477.11 acres where no physical alterations to the environment are proposed. Additionally, as previously stated on item (IV)(b) above, the project site is not located within a Sensitive Habitat; therefore, it would not interfere substantially with the movement of any resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors or impede the use of native wildlife nursery sites. Any impacts are expected to be less than significant. Conflict with any local policies or ordinance protecting П \times \Box П biological resource, such as a tree preservation policy or ordinance? e) The proposed project does not conflict with any local policy or ordinance protecting biological resources, such as tree preservation policies or ordinances. No impacts are expected. Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or \boxtimes other approved local, regional, or state habitat conservation plan? f) The proposed project is for a minor subdivision to create six (6) parcels and is not within a designated sensitive area according to the Imperial County General Plan's Conservation and Open Space Element⁴, therefore, it would not conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan. Any impacts are expected to be less than significant. V. CULTURAL RESOURCES Would the project: Cause a substantial adverse change in the significance of a П historical resource pursuant to §15064.5? a) According to the Imperial County General Plan's Conservation and Open Space Element⁴, Figure 5, the project site is not

SECTION 3

III. MANDATORY FINDINGS OF SIGNIFICANCE

The following are Mandatory Findings of Significance in accordance with Section 15065 of the CEQA Guidelines.

a)	Does the project have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, substantially reduce the number or restrict the range of a rare or endangered plant or animal, eliminate tribal cultural resources or eliminate important examples of the major periods of California history or prehistory?		D	
b)	Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.)		D	
c)	Does the project have environmental effects, which will cause substantial adverse effects on human beings, either directly or indirectly?		D

VI. NEGATIVE DECLARATION – County of Imperial

The following Negative Declaration is being circulated for public review in accordance with the California Environmental Quality Act Section 21091 and 21092 of the Public Resources Code.

Project Name: Parcel Map #02509 / Initial Study #24-0004

Project Applicant: Carson Kalin.

Project Location: 500 W. Boarts RD, Westmorland, CA 92281

Description of Project: The applicant is proposing a minor subdivision application to separate a parcel containing two existing agricultural fields into six legal parcels. The project site consists of (1) one parcel of approximately 266.69 acres of farmland and the second parcel of approximately 213.24 acres. Proposed Parcel 1 will be approximately 81.26 acres, Parcel 2 will be approximately 79.06.15 acres, Parcel 3 will approximately 106.39 acres, Parcel 4 will be approximately 58.64 acres, Parcel 5 will be approximately 78.71 acres and Parcel 6 will be approximately 75.89 acres. Existing agricultural use will remain.

VII. **FINDINGS**

This is to advise that the County of Imperial, acting as the lead agency, has conducted an Initial Study to determine if the project may have a significant effect on the environment and is proposing this Negative Declaration based upon the following findings:

The Initial Study shows that there is no substantial evidence that the project may have a significant effect on the environment and a NEGATIVE DECLARATION will be prepared.

The Initial Study identifies potentially significant effects but:

- Proposals made or agreed to by the applicant before this proposed Mitigated Negative Declaration (1)was released for public review would avoid the effects or mitigate the effects to a point where clearly no significant effects would occur.
- There is no substantial evidence before the agency that the project may have a significant effect on (2) the environment.
- Mitigation measures are required to ensure all potentially significant impacts are reduced to levels of (3) insignificance.

A MITIGATED NEGATIVE DECLARATION will be prepared.

If adopted, the Negative Declaration means that an Environmental Impact Report will not be required. Reasons to support this finding are included in the attached Initial Study. The project file and all related documents are available for review at the County of Imperial, Planning & Development Services Department, 801 Main Street, El Centro, CA 92243 (442) 265-1736.

NOTICE

The public is invited to comment on the proposed Negative Declaration during the review period.

Jim Minnick, Director of Planning & Development Services

The Applicant hereby acknowledges and accepts the results of the Environmental Evaluation Committee (EEC) and hereby agrees to implement all Mitigation Measures, if applicable, as outlined in the MMRP.

Parcel Map

Kalin - Boarts Road

Project Description

The Parcel Map consists of two separate legal parcels. The first is Assessor Parcel Number 035-210-010 and 035-210-014 located on Kalin Road between Boarts Road and the Timothy Lateral, bounded to the west by the Timothy 2 Drain, in the County of Imperial, California. The second is Assessor Parcel Number 036-150-004 located on Kalin Road between Boarts Road and Baughman Road, in the County of Imperial, California.

The subject properties are described as being Parcel A of Certificate of Compliance for Lot Line Adjustment #00331 containing 266.69 Acres and The East Half and the East 60 Acres of the North Half of the West Half of Tract 77, T.13S., R.13E., S.B.M. containing 213.24 Acres.

The reasoning behind the proposed parcel map is to separate the existing separately farmed fields into legal parcels.

Proposed Parcel 1 will have legal and physical access from Boarts Road and Kalin Road through common ownership of Parcel 2 and Parcel 3, will continue to receive water from the Tamarack Canal Delivery #202-A, and will continue to drain to the Timothy 2 Drain. There is no proposed development on Parcel 1 or any changes in water delivery.

Proposed Parcel 2 will have legal and physical access from Kalin Road, will continue to receive water from the Tamarack Canal Delivery #202-A, and will continue to drain to the Timothy 1 Drain. There is no proposed development on Parcel 2 or any changes in water delivery.

Proposed Parcel 3 will have legal and physical access from Boarts Road, will continue to receive water from the Tamarack Canal Delivery #202 through an existing easement, and will continue to drain to the Timothy 1 Drain and the Timothy 2 Drain. There is no proposed development on Parcel 3 or any changes in water delivery.

Proposed Parcel 4 will have legal and physical access from Boarts Road, will continue to receive water from the Tamarack Canal Delivery #201, and will continue to drain to the Timothy Timothy 2 Drain. There is no proposed development on Parcel 4 or any changes in water delivery.

Proposed Parcel 5 will have legal and physical access from Boarts Road and Kalin Road, will continue to receive water from the Tamarack Canal Delivery #201, and will continue to drain to the Timothy Timothy 1 Drain. There is no proposed development on Parcel 5 or any changes in water delivery.

Proposed Parcel 6 will have legal and physical access from Baughman Road, will continue to receive water from the Tamarack Canal Delivery #201-A, and will continue to drain to the Timothy Timothy 1 Drain. There is no proposed development on Parcel 6 or any changes in water delivery.

- (c) The provisions of subdivisions (a) and (b) providing for deferral of the payment of fees associated with any deferred improvements shall not apply if the designated remainder or omitted parcel is included within the boundaries of a benefit assessment district or community facilities district.
- (d) A designated remainder or any omitted parcel may subsequently be sold without any further requirement of the filing of a parcel map or final map, but the local agency may require a certificate of compliance or conditional certificate of compliance.

[Amended, Chapter 907, Statutes of 1991]

CHAPTER 2 MAPS

ARTICLE 1 GENERAL PROVISIONS

66425 Application of Chapter

The necessity for tentative, final and parcel maps shall be governed by the provisions of this chapter.

66426 Necessity of Tentative and Final Maps

A tentative and final map shall be required for all subdivisions creating five or more parcels, five or more condominiums as defined in Section 783 of the Civil Code, a community apartment project containing five or more parcels, or for the conversion of a dwelling to a stock cooperative containing five or more dwelling units, except where any one of the following occurs:

- (a) The land before division contains less than five acres, each parcel created by the division abuts upon a maintained public street or highway, and no dedications or improvements are required by the legislative body.
- (b) Each parcel created by the division has a gross area of 20 acres or more and has an approved access to a maintained public street or highway.
- (c) The land consists of a parcel or parcels of land having approved access to a public street or highway, which comprises part of a tract of land zoned for industrial or commercial development, and which has the approval of the governing body as to street alignments and widths.
- (d) Each parcel created by the division has a gross area of not less than 40 acres or is not less than a quarter of a quarter section.
- (e) The land being subdivided is solely for the creation of an environmental subdivision pursuant to Section 66418.2.
- (f) A parcel map shall be required for those subdivisions described in subdivisions (a), (b), (c), (d), and (e).

[Amended, Chapter 76, Statutes of 2003]

COMMENT LETTERS

EEC ORIGINAL PKG

Since 1911

April 15, 2024

Mr. Luis Valenzuela Planner III Planning & Development Services Department County of Imperial 801 Main Street El Centro, CA 92243 RECEIVED

By Imperial County Planning & Development Services at 9:37 am, Apr 15, 2024

SUBJECT: Carson Kalin Minor Subdivision; PM02509

Dear Mr. Valenzuela:

On April 4, 2024, the Imperial Irrigation District received from the Imperial County Planning & Development Services Department, a request for agency comments on minor subdivision; Parcel Map No. 02509. The applicant, Carson Kalin, proposes to subdivide two (2) agricultural fields located at 500 W Boarts Road, Westmorland, California (APNs 035-210-010, 36-150-004) into six (6) legal parcels.

The IID has reviewed the application and has the following comments:

- 1. IID water facilities that could be impacted with the subdivision include Tamarack Canal, Timothy Lateral 1, Timothy 1 Drain North, and Timothy 2 Drain.
- 2. The applicant should be advised to establish a point of water delivery and drainage discharge for each parcel. For additional information on water service the applicant should call and coordinate with IID's North End Division Office at (760) 482-9900.
- 3. Parcel Map 025009 does not propose modifications to existing IID facilities or rights of way. However, if future modifications of rights of way and/or IID facilities are planned, the applicant should submit such plans to IID for review.
- 4. Any construction or operation on IID property or within its existing and proposed right of way or easements including but not limited to: surface improvements such as proposed new streets, driveways, parking lots, landscape; and all water, sewer, storm water, or any other above ground or underground utilities; will require an encroachment permit, or encroachment agreement (depending on the circumstances). A copy of the IID encroachment permit application and instructions for its completion are available at https://www.iid.com/about-iid/department-directory/real-estate. The IID Real Estate Section should be contacted at (760) 339-9239 for additional information regarding encroachment permits or agreements. No foundations or buildings will be allowed within IID's right of way.

- 5. In addition to IID's recorded easements, IID claims, at a minimum, a prescriptive right of way to the toe of slope of all existing canals and drains. Where space is limited and depending upon the specifics of adjacent modifications, the IID may claim additional secondary easements/prescriptive rights of ways to ensure operation and maintenance of IID's facilities can be maintained and are not impacted and if impacted mitigated. Thus, IID should be consulted prior to the installation of any facilities adjacent to IID's facilities. Certain conditions may be placed on adjacent facilities to mitigate or avoid impacts to IID's facilities.
- 6. Any new, relocated, modified or reconstructed IID facilities required for and by the project (which can include but is not limited to electrical utility substations, electrical transmission and distribution lines, water deliveries, canals, drains, etc.) need to be included as part of the project's California Environmental Quality Act (CEQA) and/or National Environmental Policy Act (NEPA) documentation, environmental impact analysis and mitigation. Failure to do so will result in postponement of any construction and/or modification of IID facilities until such time as the environmental documentation is amended and environmental impacts are fully analyzed. Any and all mitigation necessary as a result of the construction, relocation and/or upgrade of IID facilities is the responsibility of the project proponent.

Should you have any questions, please do not hesitate to contact me at 760-482-3609 or at dvargas@iid.com. Thank you for the opportunity to comment on this matter.

Respectfully,

Donald Vargas

RECEIVED

By Imperial County Plannning & Development Services at 1:11 pm, May 30, 2024

Attention:

Gerardo Quero, Planner II

SUBJECT:

PM 2509 Carson T. Kalin

Located at 500 W Boarts Rd, Westmorland, CA 92281

APN's 035-210-010 & 036-150-004

Dear Mr. Minnick:

This letter is in response to your submittal received on April 4, 2024, for the above-mentioned project. The applicant is proposing a minor subdivision to separate two (2) existing agriculture fields into six (6) legal parcels.

Department staff has reviewed the package information and the following comments:

- 1. Applicant shall furnish a Drainage and Grading Plan to provide for property grading and drainage control, which shall also include prevention of sedimentation of damage to off-site properties. Said plan shall be completed per the Engineering Design Guidelines Manual for the Preparation and Checking of Street Improvement, Drainage, and Grading Plans within Imperial County. The Drainage and Grading Plan shall be submitted to this department for review and approval. The developer shall implement the approved plan. Employment of the appropriate Best Management Practices (BMP's) shall be included.
- Any activity and/or work within Imperial County right-of-way shall be completed under a
 permit issued by this Department (encroachment permit) as per Chapter 12.12 EXCAVATIONS ON OR NEAR A PUBLIC ROAD of the Imperial County Ordinance.
- 3. All permanent structures shall be located outside of the ultimate County Right-of-Way.
- 4. The Permittee will be required to repair any damages caused to County roads by construction traffic during construction and maintain them in safe conditions.
- 5. Prior to the issuance of grading and building permits, the Permittee shall complete the installation of temporary stabilized construction entrances and secondary emergency access driveways.
- 6. Should any structures be developed in the future, street improvements will be required as per Imperial County Ordinance: 12.10.020 Street improvement requirements.

- 7. The applicant shall provide an Irrevocable Offer of Dedication (IOD) or dedicate the required portion for sufficient right of way for future development of Boarts Road, being classified as Major Collector Collector with four (4) lanes, requiring eighty-four (84) feet of right of way, being forty-two (42) feet from the existing centerline. It is required that sufficient right of way be provided to meet this road classification. (As directed by Imperial County Board of Supervisors per Minute Order #6 dated 11/22/1994 per the Imperial County Circulation Element Plan of the General Plan).
- 8. The applicant shall provide an Irrevocable Offer of Dedication (IOD) or dedicate the required portion for sufficient right of way for future development of Kalin Road, being classified as Major Collector Collector with four (4) lanes, requiring eighty-four (84) feet of right of way, being forty-two (42) feet from the existing centerline. It is required that sufficient right of way be provided to meet this road classification. (As directed by Imperial County Board of Supervisors per Minute Order #6 dated 11/22/1994 per the Imperial County Circulation Element Plan of the General Plan).
- 9. Provide a Parcel Map prepared by a California Licensed Land Surveyor or Civil Engineer and submit to the Department of Public Works, for review and recordation. The Engineer must be licensed in the category required by the California Business & Professions Code.
- Provide tax certificate from the Tax Collector's Office prior to recordation of the Parcel Map.
- 11. The Parcel Map shall be based upon a field survey. The basis of bearings for the Parcel Map shall be derived from the current epoch of the California Coordinate System (CCS), North America Datum of 1983 (NAD83). The survey shall show connections to a minimum of two (2) Continuously Operating Reference Stations (CORS) of the California Real Time Network (CRTN). NAD 83 coordinates shall be established for every monument shown on the Parcel map.
- 12. Each parcel created or affected by this map shall abut a maintained road and/or have legal and physical access to a public road.

Respectfully,

John A. Gay, PE Director of Public Works

By:

Verorica Atondo, PE, PLS

Deputy Director of Public Works - Engineering

Imperial County Planning & Development Services Planning / Building

April 4, 2024 REQUEST FOR REVIEW AND COMMENTS

The attached project and materials are being sent to you for your review and as an early notification that the following project is being requested and being processed by the County's Planning & Development Services Department. Please review the proposed project based on your agency/department area of interest, expertise, and/or jurisdiction.
